MIMICWATCH · BRAND IMPERSONATION REPORT

Uniswap

Period: 2026-10-02 to 2026-11-01 (30 days)
Generated 2026-11-01 14:16 UTC
Official: uniswap.org, uniswapfoundation.org, unichain.org

> 2 new high-risk finding(s) not yet on any wallet blocklist (2 domain(s), 0 token(s)), plus 73 phishing domain(s) that wallets already block but that are still online. Draft reports are ready; nothing has been filed.

	CRITICAL	HIGH	MEDIUM	LOW	INFO	Total
Domains	1	74	8	96	42	221
Tokens	0	0	33	63	0	96

Checked: 4000 lookalike permutations (137 registered), 95 hostnames from Certificate Transparency, 2 newly registered domains, 198 pages fetched (40 rendered with screenshots), 126,416 new-pool tokens on base, 762 new-pool tokens on ethereum.

1. Needs a decision: new (critical / high, not on any blocklist yet)

HIGH **uniswapv4.com** Phishing (likely) 59/100 · lookalike: dictionary · found in CT logs

- Brand name plus a phishing lure word
- TLS certificate issued 2026-10-05 (Certificate Transparency)
- Brand named on the page (8x), including the title
- Wallet-connect prompt/library: Connect Wallet

Registrar: HOSTINGER operations, UAB, registered 2026-10-05 ·
Host: lir-lt-hostinger-1-MNT · IP 179.198.211.231

Recommended: After client approval: file registrar + host abuse reports, Google Safe Browsing / Netcraft, and wallet blocklist submissions (drafts attached).

- **Registrar abuse report to HOSTINGER operations, UAB**
- **Hosting abuse report to lir-lt-hostinger-1-MNT**
- **Google Safe Browsing report**
- **Netcraft report**
- **MetaMask eth-phishing-detect: blocklist addition issue**
- **MetaMask eth-phishing-detect: alternative PR (slower; most merges are bot syncs)**
- **ScamSniffer scam-database issue**

HIGH **uniswap-wallet-review.pages.dev** Phishing (likely) 58/100 · found in CT logs

- Hostname contains the brand name
- Hostname contains a lure word (claim/airdrop/support/...)
- TLS certificate issued 2026-10-04 (Certificate Transparency)
- Hosted on Cloudflare Pages subdomain
- Brand named on the page (17x), including the title
- Wallet-connect prompt/library: Connect Wallet, WalletConnect
- Mentions seed phrase, recovery phrase (no input form seen)

Registrar: n/a (platform subdomain) · Host: Cloudflare Pages · IP 172.66.46.242

Recommended: After client approval: file registrar + host abuse reports, Google Safe Browsing / Netcraft, and wallet blocklist submissions (drafts attached).

Hosting abuse report to Cloudflare Pages	**Google Safe Browsing report**
Netcraft report	**MetaMask eth-phishing-detect: blocklist addition issue**
MetaMask eth-phishing-detect: alternative PR (slower; most merges are bot syncs)	**ScamSniffer scam-database issue**

1b. Still online, already blocked by wallets or the host

MetaMask / ScamSniffer already warn their users about these, or the host shows a phishing warning. The domains still exist, so a registrar takedown is the remaining step.

▶ 73 domain(s)

2. Watch list (medium, or impersonating content without wallet prompts)

MEDIUM **uniswap-wallet-review.com** Impersonation 58/100 · found in CT logs

- Hostname contains the brand name
- Hostname contains a lure word (claim/airdrop/support/...)
- TLS certificate issued 2026-10-03 (Certificate Transparency)
- Brand named on the page (26x), including the title
- Wallet-connect prompt/library: Connect Wallet, WalletConnect
- Mentions seed phrase, recovery phrase (no input form seen)

Recommended: Review the screenshot. If it impersonates the brand, file registrar + host reports (drafts attached).

MEDIUM **unichain.fun** Impersonation 54/100 · lookalike: tld-swap

- Official name on a different TLD
- Brand named on the page (6x)
- Wallet-connect prompt/library: Connect wallet, walletConnect, WalletConnect
- Drainer-style JS: setApprovalForAll, 0x000000000022D473030F116dDEE9F6B43aC78B

Recommended: Review the screenshot. If it impersonates the brand, file registrar + host reports (drafts attached).

MEDIUM **uniswapv4.xyz** Impersonation 52/100 · lookalike: dictionary

- Brand name plus a phishing lure word
- Brand named on the page (34x), including the title
- Lure text: claim, Rewards, migration

Recommended: Review the screenshot. If it impersonates the brand, file registrar + host reports (drafts attached).

MEDIUM **uniswaqp.org** Impersonation 40/100 · lookalike: insertion

- Typosquat (insertion) of the official domain
- Brand named on the page (3x)
- Mentions seed phrase, private key (no input form seen)
- Lure text: refund

Recommended: Review the screenshot. If it impersonates the brand, file registrar + host reports (drafts attached).

MEDIUM **uniswapjiayisuoxiazai1e.com.cn** Impersonation 39/100 · newly registered

- Hostname contains the brand name
- Newly registered domain (WhoisDS daily list)
- Brand named on the page (44x), including the title

Recommended: Review the screenshot. If it impersonates the brand, file registrar + host reports (drafts attached).

MEDIUM **uniswaphd.de** Impersonation 37/100 · found in CT logs

- Hostname contains the brand name
- TLS certificate issued 2026-10-12 (Certificate Transparency)
- Brand named on the page (5x), including the title

Recommended: Review the screenshot. If it impersonates the brand, file registrar + host reports (drafts attached).

MEDIUM **uniswapbot.pages.dev** Impersonation 26/100 · found in CT logs

- Hostname contains the brand name
- TLS certificate issued 2026-10-11 (Certificate Transparency)
- Hosted on Cloudflare Pages subdomain
- Brand named on the page (10x)

Recommended: Review the screenshot. If it impersonates the brand, file registrar + host reports (drafts attached).

MEDIUM **uniswapnews.rockstardesign.ru** Impersonation 26/100 · found in CT logs

- Hostname contains the brand name
- TLS certificate issued 2026-10-03 (Certificate Transparency)
- Brand named on the page (3x)

Recommended: Review the screenshot. If it impersonates the brand, file registrar + host reports (drafts attached).

LOW **uniswwap.org** Lookalike, other crypto content 35/100 · lookalike: insertion

- Typosquat (insertion) of the official domain
- Lookalike of your domain serving other crypto content (Staking, USDC), ends at https://app.hyperliquid.xyz/join/DISCOUNT4YOU

Recommended: Review: traffic for a lookalike of your name goes to other crypto content (a competitor, an affiliate, or a phishing kit for another brand). Report if it misleads your users.

LOW **uuniswap.org** Lookalike, other crypto content 35/100 · lookalike: repetition

- Typosquat (repetition) of the official domain
- Lookalike of your domain serving other crypto content (Staking, USDC), ends at https://app.hyperliquid.xyz/join/DISCOUNT4YOU

Recommended: Review: traffic for a lookalike of your name goes to other crypto content (a competitor, an affiliate, or a phishing kit for another brand). Report if it misleads your users.

LOW **uniswsp.org** Lookalike, other crypto content 35/100 · lookalike: replacement

- Typosquat (replacement) of the official domain
- Lookalike of your domain serving other crypto content (Staking, USDC), ends at https://app.hyperliquid.xyz/join/DISCOUNT4YOU

Recommended: Review: traffic for a lookalike of your name goes to other crypto content (a competitor, an affiliate, or a phishing kit for another brand). Report if it misleads your users.

LOW **unichain.ai** Lookalike, other crypto content 32/100 · lookalike: tld-swap

- Official name on a different TLD
- Lookalike of your domain serving other crypto content (web3, blockchain)

Recommended: Review: traffic for a lookalike of your name goes to other crypto content (a competitor, an affiliate, or a phishing kit for another brand). Report if it misleads your users.

▶ 96 token(s) on the watch list

3. Everything else we checked (low / info)

Registered lookalikes without a website, parked pages, certificates for unrelated sites, and labelled false positives. Kept so you can see what was ruled out. 18 are explicitly labelled as false positives or brand-owned redirects.

▶ 134 domain(s)

4. Coverage and limits of this scan

- Certificate Transparency (crt.sh): `uniswap%` 2169 certs; `uniswap.%` 2169 certs; `uniswap-%` 0 certs; `%uniswap%` 0 certs. crt.sh truncates leading-wildcard searches, so names that only contain the brand in the middle can be missed.
- Newly registered domains (WhoisDS free list, capped at 70k names/day): 2026-10-31: 70000, 2026-10-30: 70000, 2026-10-29: 70000, 2026-10-28: 70000, 2026-10-27: 70000, 2026-10-26: 70000, 2026-10-25: 70000.
- Tokens: base: 30 days of new pools; ethereum: 1.4 days of new pools (3 RPC errors). Only tokens that got a Uniswap/Aerodrome pool are seen. Free Ethereum RPCs serve about a day of logs.
- Wallet blocklists checked: metamask, scamsniffer.
- Not covered yet: X/Twitter, Telegram and Discord impersonators, app stores, paid ads, Solana tokens.
- Scores are heuristics. Every finding above "low" should be looked at by a person before anything is filed.

5. How this was collected

Only public data was read: DNS, certificate logs, public domain lists, public blockchain logs, RDAP, and the public pages themselves (fetched like a normal visitor; no logins, no clicks, no form input, no wallet connected). No suspect was contacted. Nothing in this report has been filed with any registrar, host or blocklist: every report under "Draft" is text for Uniswap to approve. We file only with a signed Letter of Authorisation.
